

The background of the slide is a close-up photograph of a leaf. The leaf's surface is covered with numerous small, clear water droplets. The veins of the leaf are visible, creating a complex, branching pattern. The colors are a mix of green and blue, with the blue likely due to the lighting or the specific type of leaf.

EVOLUTIONARY MODELS OF STRUCTURED POPULATIONS - integrating methods

Workshop in Plön, Germany

September 05 - 07, 2018
